## Medical Procedures

All parents must fill out a medical release form for all camp participants. This will include permission to transport the child to appropriate medical facilities, perform CPR, First Aid, and dispense any prescribed medication. The children will only be given medication by staff members, and only will be given medications that are specifically prescribed for that child. All dosing will be strictly followed according to dosing on the medication. If dosing is different than written on the original container, the parents must provide the camp with a written letter from the physician with the current dosing instructions. All medication must be in its original packaging. The camp staff will not administer any expired medication. If any medications are left behind after the child has attended camp, reasonable efforts will be made to return the medication to the parents. If medication has not been picked up after 30 days, it will be disposed of properly.

When medication is given, the administrator will fill out the medication record for the camper. The record will be kept for one year.

All medications will be kept in a locked box in a secure location. When onsite at CCMSH, the medications will be kept by the Education Director, except for fast acting, lifesaving medications like EpiPen(s) and inhalers. These medications will be kept with the camper's counselor. If you wish for your child to carry their own medication, we must have a note from a physician stating the medical necessity.

All camp employees are first aid trained. A first-aid kit will be kept in each classroom, the museum front-desk, and offices. When off-site the Education Director & Senior Education Staff will have a first-aid kit on their person.

If a camper needs an EpiPen, or if the injury seems to require immediate medical attention beyond first aid, the Education Director will immediately call 911. The child will be transported to the hospital designated on the child's medical form (if no hospital is indicated the default will be Driscoll Children's Hospital), or other medical facility as determined by the EMT staff. Immediately after 911 is called, the Education Director will call the child's parents and inform them of the situation and let them know where to meet the child. A staff member will ride in the ambulance with the camper to the hospital and stay with the child until the parents arrive.

Parents will be notified by letter/email if a communicable disease is contracted by a child or staff member.

## Discipline and Guidance Practices

CCMSH camps will not tolerate any of the following: fighting, name calling, bullying of any kind, rough housing, inappropriate sexual activities, or activities that threaten the safety of others. Any activities of this sort will result in disciplinary action for the child.

Disciplinary action will vary depending on the situation but may include:

- Verbal warnings
- Time out for as many minutes as the child is old (age 5 = 5 minutes out)
- Natural consequences
- Call home to parents
- Suspension
- Expulsion from camp

If two or more incidences requiring parent contact occur within the week, CCMSH may suspend the child.

The suspension and expulsion policies stated above are guidelines. An action of severity may result in suspension or expulsion regardless of prior parental contact or suspension. CCMSH reserves the right to adopt this policy at our discretion. No refunds will be given for any missed days or weeks due to disciplinary action.
