Science Experiments/Crafts:

Oobleck/Slime:

Get your hands a bit messy with our non-Newtonian slime. Learn about sheer force and impact with this funky liquid.

Van de Graff:

Allow our educators to guide you through a truly hair-raising experience! Get a private showing of the Van de Graff generator and how it harnesses the power of static electricity.

Making Catapults:

With just a few supplies and a bit of know-how, create an ancient siege weapon to take home!

Chemistry – CO2 Balloon:

Join our educators in creating an endothermic reaction in a balloon. This reaction is safe to perform, and lets children feel the science happening.

Dinosaur Plane:

Learn about the mighty Pteranodon and then make a small one. This fun and simple craft can even fly!
